

POSTDOCTORAL POSITION IN STEM CELL BIOLOGY AND LEUKEMOGENESIS

Center for Cell-based Therapy (<http://ctcusp.org>), Ribeirão Preto, São Paulo, Brazil

Posted: February, 5th 2016

Expires: February, 29th 2016

DESCRIPTION

A postdoctoral position is available in the field of Stem Cell Biology and/or Leukemogenesis at the Center for Cell Therapy (CTC). CTC is located at the Regional Hemotherapy Center of the Ribeirão Preto Medical School (University of São Paulo – USP). CTC is a part of the Program of Research, Innovation and Dissemination supported by FAPESP (Fundação de Amparo à Pesquisa do Estado de São Paulo).

The research at CTC focuses on stem biology and translational medicine with a multidisciplinary and collaborative efforts to: i) understand stem cell biology, highlighting pluripotent stem cells (embryonic and induced pluripotent stem cell) and somatic stem cells; and ii) to develop protocols for pre-clinical and clinical studies.

Applications must be sent to the e-mail: February, 29th 2016 at 18 pm (BRT). Additional information is found at: <http://ctcusp.org>. The successful candidate will be awarded with a FAPESP postdoctoral fellowship (www.fapesp.br).

ITEMS REQUIRED

- The candidate should have doctoral degree (PHD);
- Previous experience in stem cell and/or leukemogenesis research, and knowledge of cell and molecular biology techniques (basic and advanced) are highly valued.
- Good written and oral English communication skills are essential.

Interested applicants should submit a letter of motivation (1 page max), complete CV (2 pages max), and two recommendation letters with respective contact information of the reference until February, 29th 2016 to fernanda.udinal@hemocentro.fmrp.usp.br
